Tarkasa TALES

FREE ACTIVITY PACK

Mae Jemison

The Girl Who Made Room for a Big Dream

Inside this pack

1. Words to know — a picture-book glossary
2. Be a curious scientist — four things to try with a grown-up
3. My big question — write and draw your own question

These pages come from the back of the book. Print them at home or in class and enjoy them together.

Words to Know

Astronaut: a person trained to travel into space.

Space shuttle: a spacecraft that could fly to space and land like a plane.

Engineer: someone who designs and builds things.

Doctor: someone who helps sick people get well.

Experiment: a test to find something out.

Crew: a team that works together on a mission.

Mission: a special journey with an important job.

Tadpole: a baby frog.

Be a curious scientist

Try these with a grown-up:

1. **Moon diary.** Draw the Moon every clear night for two weeks. How does it change?
2. **Floating test.** Which toys float in the bath? Astronauts float in space too, but for a different reason!
3. **Mission badge.** Design a badge for your own space mission. Who is in your crew?
4. **Science dance.** Make up a dance that shows a rocket launch, floating, and landing.
