FREE ACTIVITY PACK

Jane Goodall

The Girl Who Learned to Wait

Inside this pack

1. Words to know — a picture-book glossary
2. Be a curious scientist — four things to try with a grown-up
3. My big question — write and draw your own question

These pages come from the back of the book. Print them at home or in class and enjoy them together.

Words to Know

Chimpanzee: a clever ape that lives in groups in African forests.

Observe: to watch carefully and notice details.

Patient: able to wait calmly.

Termite: a tiny insect that lives in a big mud mound.

Tool: something you use to help do a job.

Binoculars: a tool that makes faraway things look close.

Forest: a big place full of trees, home to many animals.

Protect: to keep safe.

Be a curious scientist

Try these with a grown-up:

1. Bird watch. Sit still by a window for 10 minutes. Draw every bird you see. Does it hop or walk?

2. Be a tool-maker. Can you use a straw or a spoon to get a raisin out of a narrow jar without tipping it?

3. Animal diary. Watch a pet, a snail or an ant for a few minutes every day for a week. Write or draw what it does.

4. Help nature. With a grown-up, put out a shallow dish of water for birds and insects.

My big question

My name is _____

I waited and watched a _____

I saw _____

I wonder _____

Draw what you saw:
